The Owner shall in addition have the following rights and responsibilities in connection with the performance of the work at the Project, which shall include, but not be limited to the following:

- (1) Notice of Commencement. Prior to commencement of any work contemplated by the Contract Documents and simultaneously with the execution of the loan agreement and mortgage, the Owner shall execute and deliver to the City a Notice of Commencement for recording in accord with the provisions of the Mechanic's Lien Law of Florida. The Owner shall authorize the City to cause said Notice of Commencement to be recorded in accord with the provisions of said law.  - (6) Prohibition on Hindrance of Work. The Owner, nor any member of its family, tenants, agents or employees, shall not in any manner hinder the Contractor or its subcontractor, or their agents and employees from the execution and performance of the work, nor commit any abusive or threatening conduct with respect thereto; provided, that nothing contained herein shall limit or prevent the Owner from exercising its rights and privileges as further described in this Addendum and the Rehabilitation Agreement to obtain the full and proper performance of the work in accord with the Contract Documents, nor from exercising all rights and remedies with respect thereto when prosecuted in accord with the methods and procedures otherwise described in this Addendum and the Rehabilitation Agreement.

- (8) Right to Carry Out the Work. If the Contractor defaults or neglects to carry out the work in accord with the Rehabilitation Agreement Documents, and fails within three (3) working days after receipt of written notice from the Construction Manager to commence and continue correction of such default or neglect with diligence and promptness, the Construction Manager may, after five (5) calendar days following receipt by the Contractor of an additional written notice, and without prejudice to any other remedy the Owner may have, make a good such deficiencies. In such a case, an appropriate Change Order shall be issued deducting from the payments then or thereafter due to the Contractor the cost of correcting such deficiencies, including compensation for the additional costs incurred by the Construction Manager, if any, made necessary by such default, neglect or failure. If the payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference.
- (9) Right to Terminate. If, through any cause, the Contractor shall fail to fulfill in a timely and proper manner their obligation under the Rehabilitation Agreement, or if the Contractor shall violate any of the covenants, agreements, or stipulations of the Contract Documents, the Construction Manager shall have the right to terminate the Rehabilitation Agreement by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least seven (7) calendar days before the effective date of such termination. - (10) Responsibility to Complete the Work. In the event that the Rehabilitation Agreement is terminated, the Owner acknowledges and understands that the Owner shall not be relieved of its obligations to complete the work remaining at the Project in full accord with the terms and conditions of this Addendum and the Contract Documents as well as approved and otherwise required Change Orders, in effect at the time of said termination. In such case, the Owner shall work with the Construction Manager to secure a replacement contractor in accord with the policies and guidelines of the Rehab Program, and shall execute all documents, including amendments to the original Mortgage and Note, if additional financing not inconsistent with the maximum available loan that can be made in accord with this Agreement, is necessary for the prompt completion of work being done in connection with the Project. Any additional costs necessary for the completion of the work at the Project, where further financing under the Rehabilitation Program cannot be extended in accord with this Addendum, shall be borne by the Owner.
- (c) Construction Manager's Responsibilities. The Construction Manager shall administer on behalf of the Owner the terms and conditions of the Rehabilitation Agreement. The Construction Manager shall be the representative of the Owner during construction and until final payment to the Contractor is made and the elapse of one year has occurred from the date of the Certificate of Completion on the Project. The Construction Manager shall advise and consult with the Owner throughout the time of performance for the completion of the work specified in the Rehabilitation Agreement. All instructions from the Owner to the Contractor shall be forwarded through the Construction Manager. The Construction Manager shall have authority to act on behalf of the Owner only to the extent provided in this Addendum and the Rehabilitation Agreements, unless otherwise modified in writing, which shall include the following:
- (1) Preconstruction Conference. The Construction Manager shall conduct a Preconstruction Conference, to be attended by the Owner and the Contractor, said preconstruction conference to be held within five (5) working days after full execution of the Rehabilitation Agreement. The Construction Manager shall, upon conclusion of the Preconstruction Conference, issue a "Notice to Proceed" to be made effective no later than ten (10) working days from the date of the Preconstruction Conference; providing, that a "Notice to Proceed" shall not be issued or made effective until the Construction Manager is provided proper evidence of the Contractor's license(s), waiver of lien and insurance, unless otherwise provided in the Contract Documents. Work shall commence within 10 days of issuance of the Notice to Proceed. The Construction Manager shall also receive from the Contractor for the work at the Project as well as other programmatic information reasonably required by the Construction Manager

under the policies and guidelines of the Rehabilitation Program concerning the Contractors' subcontractors, work force needs and local business utilization plans.

- (2) Work Scheduling. The Construction Manager shall obtain from the Contractor prior to the commencement of work, a schedule of the work and approximate timeframes for the performance of all work by contractors and subcontractors participating on the Project, as may be amended or supplemented from time to time, so that the Construction Manager shall continuously be informed on the "Project Construction Schedule" to enable the Construction Manager to properly plan and perform the inspections and responsibilities of the Construction Manager.
- (3) Work Force. The Construction Manager shall be provided the full cooperation and courtesy of the work force employed or performing work in connection with the Project by the Contractor or its subcontractors. - (4) Site Inspections. The Construction Manager shall visit the site at intervals appropriate to the stage of progress on the rehabilitation construction work to become generally familiar with the progress and quality of the work and to determine in general if the work is proceeding in conformance with the Contract Documents. However, the Construction Manager shall not be required to make exhaustive or continuous on-site inspections to check the quality or progress of the work. On the basis of these on-site observations, the Construction Manager shall keep the Owner informed on the progress of the work.
- (5) Quality Control. The Construction Manager shall oversee quality control in the charge of construction means, methods, techniques, sequences or procedures, or for safety precautions and program performance in connection with the work at the Project, but the Construction Manager shall not be responsible for the Contractor's failure to carry out the work in accord with the Contract Documents.
- (6) Work Conformance. The Construction Manager shall determine in general that the work of the Contractor is being performed in accord with the Contract Documents, and shall endeavor to guard the Owner against defects and deficiencies in the work of the Contractor.
- (7) Work Rejection. The Construction Manager shall have authority to reject the work of the Contractor which does not conform to the Contract Documents, and to require special inspection or testing if determined necessary by the Construction Manager.

- (8) Change Order Processing and Approvals. The Change Order shall be signed by both the Owner and the Contractor, only upon the recommendation of the Construction Manager, which said fully executed Change Order shall then constitute an addendum or modification to the original Rehabilitation Agreement.

Any such changes shall be made only when and where determined necessary and desirable in the opinion of the Construction Manager. Where approved Change Orders diminish the cost of the work specified in the Rehabilitation Agreement, such changes or alterations shall not constitute a claim for damages or anticipated profits. In determining the cost of items deleted or added that diminish or increase the scope of work specified in the Contract Documents, the parties to the Rehabilitation Agreement shall use those prices already stipulated therein or otherwise consistent with the intent and reasonably inferable from the Contract Documents; and if not set forth therein or otherwise reasonably inferable thereto, fair prices shall be determined by mutual agreement between the parties to the Rehabilitation Agreement, upon the recommendation of and approval by the Construction Manager.

- (9) Payment Processing and Approvals. The Construction Manager shall review all payment applications submitted by the Contractor, whether a partial or final payment request, and shall then make recommendations to the Owner on the approval and issuance of payment. The Construction Manager shall conduct inspections to determine the dates of partial completion and final completion of work, and shall receive and forward to the Owner for its review, written warranties, manufacturer warranties, release of liens and related documents required of the Contractor in accord with this Addendum and the Rehabilitation Agreement. Based on the observations and evaluations of the Construction Manager, including the determinations of the local Building Officials, the Construction Manager shall determine the amount due to the Contractor on its payment application and shall process a payment request for the work at the Project found acceptably installed and in place. The Construction Manager shall process a final payment request upon performing its final inspection and its determination that the Contractor has fully complied with the requirements of the Contract Documents. In conjunction with this determination, the Construction Manager shall process the final payment request and issue the Certificate of Completion for the Project.

In the event that the Construction Manager shall in performing its final inspection determine that work, or a portion of work, does not meet the requirements of the Contract Documents, then, in such a case, the Construction Manager shall issue a "Punch List" to the Contractor enumerating the work items found to be unacceptable or deficient, and shall withhold approval of the final payment request, or on portions thereto, until all work so questioned is found acceptable by

the Construction Manager. Upon said determination, the Construction Manager shall process the final payment request and issue the Certificate of Completion for the Project.

- (10) Questions and Interpretations. The Construction Manager shall be the interpreter of the requirements of the Contract Documents and the judge of the performance thereunder by both the Owner and the Contractor. The Construction Manager shall render interpretations necessary for the proper execution or progress of the work, with reasonable promptness and in accord with agreed upon time limits. Either party to the Rehabilitation Agreement may make written request to the Construction Manager for such interpretations.

All such claims, disputes and other matters in question between the Owner and the Contractor relating to the execution or progress of the work or the interpretation of the Contract Documents shall be referred to the Construction Manager for decision. Upon receipt of the written request and review of the progress of the work, the Construction Manager shall render a decision in writing within the agreed upon time limits. All interpretations and decisions of the Construction Manager shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in writing or in graphic form. The decision of the Construction Manager in matters relating to the execution or progress of work, including the artistic effect of the work, shall be final if consistent with the intent of the Contract Documents. In this capacity as interpreter and judge, the Construction Manager shall endeavor to secure faithful performance by both the Owner and the Contractor, shall not show partiality to either, and shall not be liable for the result of any interpretation or decision rendered in good faith in such capacity.
