**Request for Information Questions/Clarification**: 

**Q.1** The café setup does not appear to be compliant with current building and zoning requirements for operating a food establishment. Specifically, related to a 3 compartment sink, elevated storage, and possibly the materials used in the countertops, which appeared to be porous and therefore non-compliant. In the next stage of the completion of the work being done on the library, can these changes be made or would bringing the facility into compliance be the responsibility of the vendor?

**A.1** It will be the responsibility of the vendor to bring the café into compliance. The costs to bring the facility into compliance will be the responsibility of the Vendor. The Vendor may be permitted to pay a lower monthly fee to help cover these costs. The Library will work with the Vendor regarding additional storage space.
Q.2 The café is entitled to operate after library hours. The location of the bathrooms is outside of the café area. If the café is open to the public, the bathroom would need to be accessible. Are the bathrooms or bathroom going to be made accessible to the café after hours?

A.2 Yes, the library will allow access to the restroom adjacent to the café space provided that the vendor can block off access to the Library building to the satisfaction of the Library Director. Costs to block access to the Library will be the responsibility of the vendor. The restroom will be used as a unisex restroom after hours and will be treated as a single restroom facility allowing one client at a time to have access to the restroom.

Q.3 What is the maximum number of seats, both indoor and outdoor that is allowed?

A.3 Outdoor seating will be determined jointly by vendor and Library Director, and approved by the City according to exterior landscaping layout. The interior seating is limited to no more than 10 customers at a time, due to the small space. Additional seating is also available in the vestibule area of the library.

Q.4 Are cooking appliances, like convection ovens, soup tourines, Panini presses, ice cream machines, etc., allowed to be used in the café?

A.4 While there is no cooking allowed on site, vendor will be able to use on-site heating devices such as microwaves, convection ovens, warming devices, sandwich presses, and other similar utensils. If they are electric they will be required to have dedicated electrical service to them and meet certain requirements about wall finishes, etc. All food preparation and warming practices must be detailed and are subject to permit approval.

Q.5 Will the vendor be allowed to place separate signage on the outside of the Café, both coming in from the outside and from inside the library?

A.5 Yes, however all signage must first be submitted to the Library for approval.

*Questions not showing in the addenda are answered in the RFP.

All other terms, conditions and specifications remain unchanged for this solicitation.
