The City will have at least three (3) business days to review an application for a filming permit and may approve with conditions or deny the request.

The permit will be reviewed by the City liaison, City Manager or his designee, and other City officials or agencies as deemed necessary. The City Manager may, at his/her discretion, with the intent of protecting public interest, safety and welfare impose conditions such as:

- Require the applicant to secure signatures from abutting property owners within a seventy (70) foot radius that may be impacted by the project. The applicant will be responsible to certify to the City that all property owners, within the area designated as the impact area, have been notified of the filming. Designation of the impact area will be at the discretion of the City Manager or his/her designee.

• Limit the number and location of vehicles, trailers, and equipment as depicted on the approved site plan submitted in order to minimize intrusive impacts on neighborhoods.

• The City exerts authority for all aerial filming that occurs from ground level to 1000 feet above ground. As part of an Unmanned Aerial System (UAS), request for aerial filming over the City, the production must follow all requirements of the Federal Aviation Administrations (FAA) UAS rule.

• Require the applicant to provide proof of compliance with other local municipalities and agency regulations.

• Any other conditions or limitations, which are necessary to protect neighborhoods from negative impacts and intrusions.
