PROPOSED TRAFFIC CIRCLE INTERSECTION
AT NE 14th AVENUE AND NE 131st STREET

PROBLEM:
A traffic circle is proposed at the corner of NE 14th Avenue and NE 131st Street to improve traffic flow and pedestrian safety.

PROPOSED SOLUTION:
A traffic circle will be constructed with a central island and three entry points to allow for smooth traffic flow and increased safety for pedestrians.

IMPLEMENTATION:
The construction of the traffic circle will include the following steps:

1. Excavation of the road network
2. Installation of the central island
3. Placement of new traffic signals
4. Installation of pedestrian crosswalks

MATERIALS:
The materials required for the construction of the traffic circle include:

- Concrete
- Steel
- Electrical and plumbing conduits
- Pavement materials

SCHEDULE:
The construction is scheduled to begin in June and be completed by September.

Risks and Considerations:
- Traffic disruptions during construction
- Pedestrian safety during construction
- Potential delays due to weather conditions

Conclusion:
The proposed traffic circle will significantly improve traffic flow and pedestrian safety in the area.

Always call 811 before you dig.
