**Contact Name** Marissa Maring

**Alternate Contact Name**

**Project Name:** Proposed Water Main Improvements at N.E. 6th Avenue and N.E. 137th Street

### Work Information:

The proposed on-site water improvements include upgrading approximately 2,700 LF of existing 6" water main to 12" C900 PVC water main with service connections and additional fire hydrants. Also proposed are restoration plans denoting pavement markings and signs, pavement milling and resurfacing areas, and a proposed concrete sidewalk. On behalf of City of North Miami.

3/26/2020 12:04:22 PM	4/23/2020 6:13:50 PM	20	HAYS, DAVID W	Disapproved	Traffic Engineering Division (Alternate)	on sheet C5.3 you need to show the replacement of the west leg stop bar and portion of lane lines that will be ground out by the limits of the milling and resurfacing work that you show. You also need to show on this sheet the traffic signal loops that will need to be replaced. You will need to replace the south bound to east bound left turn lane loop and the existing loops in the west leg eastbound approach lanes. As this is an FDOT signal the loops
