| Unique Service Line ID | Street Address | System-Owned Portion Service Line Material Classification | Customer-Owned Portion Service Line Material | Service Line Installation Date | Service Line Size |
|---|---|---|---|---|---|
| *A Unique ID is recommended for each service line.* | *Water systems must track addresses of all service lines in their internal inventory. For the publicly accessible version, location identifiers are required for lead and galvanized requiring replacement. If the system does not use addresses for their location identifier, other options could include GPS coordinates, landmark, intersection, block, or other details to specify service line locations.* | *Dropdown list includes recommended subclassifications. If "Non-Lead Other", describe in Notes field* | *Dropdown list includes recommended subclassifications. If non-lead other, describe in Notes field.* | *Date, year, or estimated date range when the service line was installed or replaced* | *Diameter in inches* |
